uniforms seemed in many cases to impress the rioters with the majesty of the law. In one instance a socie of twelve mounted men with about 100 on foot easily dispersed a crowd of over a thousand jeering, cursing, drinkinnamed rioters.

At Friedrichshain, a suburb of the city, a beer shop was demolished by the rioters, for the purpose of punishing the proprietor for not subscribing to the Verwarts, the socialist organ.

Such an occurrence as that withnessed on the Uniter den Linden yesterday would not have caused much comment had it happened in Paris, or even in London, where encounters between the police and large bodies of the people are not fiftequent. But here in Berlin, the capital ground down under the presence of soldiers and military police, the rioting of yesterday attains a point of very great significance. It revealed, as if by a thunderclap, the fact that the Emperor is most unpopular with the masses, and that the people are beginning to feel convinced the the damning words recently attributed to the Emperor must be the vaporings of a crowned madman, and that the ruler of the German empire is suffering from dementia.

AN ENCOUNTER AT THE GATES.

At 10 clock this afternoon a relief detach ment of soldiers, headed by a band, was marching towards the castle to take the places of the guards on duty there. They were accompanied by a large mob who in every way taunted them with uphoiding the rich against the poor. With measured step and eyes to the front, the soldiers marched as though they were on dress parade. For all the notice the soldiers took of the insulters they might have been marching through a deserted street.

A body of the police had been drawn across the street near the imperial residence to prevent anyone but the guards from entering the Castle square. The mob tried to break through the line and a violent encounter ensued. The soldiers marched through to the castle, still heedless of the row

Heads were broken right and left and the police and they struck right and left and the police captured many more prisoners. Through

their weapons.

Finally a detachment of mounted police that had arrived on the scene, rode down on the mon, which broke and scattered in every direction. Many of the flying people were knocked down and trampled on by the horses, but the policemen had no mercy on the fugi-tives and drove their horses at headlong speed over any of the mob who stood in their way. The route of the roughs was complete. The police this afternoon are known to

Very face of the Kaiser.

Inflamed by their excesses of yesterday and last night, the rictous crowd, many of the members of which had passed the whole night on the streets, began to renew their disturbances this morning. The law-abiding residents of the city have taken alarm and many of them did not care to leave their dwelling. deny the dynamite stories. Thus it is but natural that many people believe that this alarming story or feature of the riot story is true. That there is some foundation for it seems to be beyond a doubt, as it is well known that the agitators who have recently them the stories to Paris that the agitators who have recently been making their homes in Paris, in London and in Spain are known to be making their way towards Berlin. Should they be recognized they will be promptly ar-rested, and will no doubt meet with the most

severe treatment possible.

The foreign legations in this city have been busy all the morning answering inquiries telegraphed them by their respective governments. The foreign powers seem that the power has the details reers seem most anxious to have the details regarding the political aspect of the affair and the possible effects of the rioting.

Emperor.
It is known that some of the prisoners cap It is known that some of the prisoners captured last night were women, and this fact, joined to the extraordinary precautions taken to guard the castle and the public buildings, certainly lends color to the story. There is no doubt, in any case, that the advanced Socialists and Anarchists have openly declared that the next time they have a brush with the police they would be better equipped for the battle, and that a few doses of dynamite would be tried upon the Emperor's "butchers."

WILLIAM WAS FURIOUS. It is known that the Emperor is furious with rage caused by the popular outbreaks of yesterday, and especially at the story circulated to the effect that he was trembling with fear while standing at the window yesterday looking at the battle between the

with fear while standing at the window yesterday looking at the battle between the rioters and the police. It is doubtful if the Emperor was trembling with fear. He was, however, very pale, but this is more likely to have been due to excitement.

For the behavior of the police in driving away the body of rioters which appeared on the Unter den Landen to-day, it is judged that the authorities have received the most stringent orders not to spare the people if there was any additional disturbance. for they did not wait for the mob to approach them, but charged furlously at them, hitting and pricking at the workmen with their swords. They refrained much from pursuit, however; but this was possibly due to the fact that the detachment of police referred to had been detained for special duty on the Unter den Linden and that so soon as the rioters were driven of that boulevard they considered that their share of the business was accomplished. This police detachment, it should be added, behaved with the greatest brutality throughout the day, dispersing with kicks and blows from their swords the most peaceful gatherings of citizens. In addition to this, a military cordon was established, preventing the approach of anyone within 300 yards of the castle.

The conclusion that people here are gradually coming to is that there is no doubt that the

The conclusion that people here are gradually coming to is that there is no doubt that the empire is in danger. It is not intended by this to intimate that it is probable that the empire will soon be swept away by the waves of a revolutionary movement. The time for that upheaval has not arrived. that upheaval has not arrived. But the mutterings of a threatening storm are heard in the distance and the first fla shes of lightning were seen on the Uniter Den Linden yesterday afternoon and the rumbling of the thunder was heard from night until morning.

It is felt on all sides that the Emperor, by announcing practically to the Brandenburgers that he had flung down the gauntlet to the people, and that he would drive from their homes and into the exile of immigration all those who oppose his will, gave the signal for the struggle between himself, as it in the state," and the people of the empire, who are asserting their right to have their wrongs redressed by their sovereign.

The Emperor, it is recalled, at a previous Brandenburg banquet exclaimed: "There is Brandenburg banquet exclaimed: "There is Brandenburg banquet exclaimed: "And it is ruler and I will endure no other." And it is

It was advice based upon such reasoning as that of Herr Barth, which undoubtedly served to calm the masses yesterday and to-day, and which may have prevented much bloodis ended. There may be no further rioting at present, but a struggle between the Emperor and the people is admitted to have commenced.

menced.

THE EMPEROR APPEARS.

Many things have been said for and against Emperor William, but he has never been accused of cowardice. Though he is no doubt greatly disturbed by the events of sesterday and to-day, he does not show any anxiety in his face as to what the final outcome will be. There was great excitement in the vicinity of the casile at 3:30 o'clock this afternoon, when His Majesty, attended by one aide and preceded by two mounted policemen, emerged on horseback from the castle court-yard and rode slowly through the streets, notwithstanding that they were packed by excited masses of people. He was loudly and enthusiastically cheered by the masses through which he proceeded. He rode along the, Unter den Linden to the Thier Garten, and was everywhere the recipient of a most hearty welcome from the excited populace, Some of his legislative measures may be bittered. THE EMPEROR APPEARS. Some of his legislative measures may be bit terly opposed by the people, but the action of the people as a whole this afternoon shows that personally he is a great favorite. His appearance in the streets during a time like the present is apt to have a good effect in the direction of cooling the anger of the excited workness.

HER UNEMPLOYED MASSING AND DEMANDING WORK.

VIENNA, Feb. 26 .- Much has been said concerning the labor question in Austria where spasmodic eruptions, similar to those that have recently occurred among the unemployed in Italy, Spain and Germany have upward of 1,000 unemployed Bohemian laborers sent delegates to the Burgomaster of Prgue and to the Stadtholder, Count Thun, de-manding work. The Count received the del-egates and urged thom from any noisy mani-festations and promised to do his best for ers they were prepared to employ.

THE CASTLE THREATENED.

There is another rumor circulating this afternoon. It is to the effect that the cordon of military and police around the palace is due to the fact that the secret police have obtained trustworthy information that a plot exists among the Anarchists to make an attempt to blow up the castle, or at least destroy a stempt to allow the number of unemployed is of course far greater. There is another rumor circumstated afternoon. It is to the effect that the cordon of military and police around the palace is due to the fact that the secret police have obtained trustworthy information that a plot exists among the Anarchists to make an attempt to blow up the castle, or at least destroy a portion of that building with dynamite. It is added that among the men arrested last night was one who dressed like this clothing three large packages of dynamite. It is alleged that this man was only one of a number who were similarly equipped, and that their intention was to mix among the rioters, watch except the castle, or a rush at the castle, or at least estimated the secret police have obtained trustworthy information that a plot exists among men of this class and their families, and it would be supposed that the Government would look with favor upon any private attempt to alleviate the distriess. This is not the case, however, at least it is not the case, ho proval and they have stopped the distribu-tion of bread, giving as their reason for so doing that the assembling of thousands of the poor constitutes a public danger. The ed-itor of the Volks Press, assisted by Herr Frey, a Socialist, made it his business to visit the many bakeries of the city and appealed to the proprietors to give him bread to help the starving. This, too, falled to meet the approval of the authorities and both the editor and Herr Frey have been arrested for this so

Capt. Bourke Relates an Incident of the Border War.

OMAHA, Feb. 26 .- Mrs. Capt. Bourke has received a letter from her husband telling of a lively brush he and a fellow captain had with Garza, the Mexican bandit and two members of his band. The letter was dated at Garza's ranch. Capt. Bourke and Capt. Chase and a squad of troops were locating a new post when they met Garza and gave chase The revolutionists fied and were so closely pressed that Garza dropped his ivory handled revolver, his spure, his saddle and finally his personal diary. These were taken by Capt. Bourke, who holds them as troplies of the chase. Capt. Bourke states that Garza's diary was filled with fulsome notes of Garza's greatness.

He took this to mean that there was some doubt as to wh

of the offense against it.

Mr. Enloe then asked the Secretary about the filing of charges against young Raum by Messrs. Howard and Engle, clerks in the Pension office, charging Raum with demanding money from them. He told Mr. Bussey to call the Commissioner's attention to this matter and request him to see to it. The Commissioner said that the charges were circulated to injure him and filed counter charges, with a demand for the removal of these men and Special Examiner Taylor.

Mr. Gibson's bill had a good prospect of passage until Secretary Noble protested.
"It earnestly desired," Mr. Gibson stated, "to avoid a conflict with the Department of the Interior because I knew the Secretary had a great and powerful department benind him, while we were plain Western men and had neitheroffice, lobby nor power in Washington, whatever might be our standing at home; because I depreciated the introduc-

Because I believed that Senators who cared but little for the park, if there be any, would not object to any reasonable thing we desired so long as we asked no money or aid from the Government, and that those Senators who cherished the park would desire its development and the Uning of the needed large and costly hotels and steamboat, and would be generous, or at least fair to us, but that if the conduct of the Secretary were shown to be ever so unjust and illegal, Republican Senators might hesitate to vote against him. But now the protest which the Secretary makes leaves me no other alternative but to lay the facts before this committee. This is the merest self-defense on the part of the association."

Mr. Enloe said he could explain that. The messenger had been told to read the summons to another witness and probably took if the forgranted that that course was necessary with everyone.

Secretary Noble said he referred to that for two reasons. First, the President had intimated in his message that a free investigation of any of the departments would be welcomed and he, of course, to examine his department, and he and his officers would give any information they could. In the second place, for the benefit of his successor, he wanted to protest that the head of an executive department was not subject to process of the House to come forthwith and without limit of time. "I come here voluntarily," added the Secretary, "and without any force or writ."

Mr. Enloe then inquired about the removal of young Green B. Raum.

Lyman called on him in May, 1891, with a paper, making charges against young Raum of receiving money either directly or indirectly through a colored man in the Treasury Department for the appointment of a man named Smith, another man named Johnson personating Smith in the necessary civil service examination. The Secretary said it had never been his practice to wait very long under such circumstances and he immediately required young Raum's resignation. He did not examine into the matter beyond the report of the Civil Service Commission. Young Raum was the son of the Commissioner and he gave him time to find something eise to do before his resignation should take effect. He treated young Raum mildly, as he thought the circumstances required that he should do so, because of the young man's relationship to the Commissioner, Mr. Little of New York asked if it were cus-

roung man's relationship to the Commissioner.

Mr. Little of New York asked if it were customary to give men whose resignation was demanded thirty days' leave.

The Secretary said there was no rule on the subject. He had expected there would be some criticism of his action, but the man being young, he would rather let him go out under such circumstances than to shirk the responsibility and criticism.

Mr. Brosslus of Fennsylvania and Mr. Payson asked if an opportunity had been given young Raum to defend himself from the charges made.

The Secretary replied: "No, because I thought the charge of such a character affecting the service so deeply; because the charges were brought to me by an officer of the Government bureau who had investigated the matter, and because he made statements so apparently truthful, I determined to rid myself of it at once. I thought the good of the service demanded that he should go, and I sent him."

The Secretary said nothing with reference to the fraud on the Civil Service Commission, for the Commission looked to him to take care of young Raum, and it would take care of young Raum, and it w

CUBA MUST BE FREE.

Exiles in New York Prepare to Strike for the Island's Liberty.

A WELL-PLANNED REVOLUTIONARY MOVEMENT UNDER WAY.

Lending Their Aid to Lift the Spanish Yoke-Hope of Annexation to the United States-Former Revolts and the Men Who Led Them-

n foot to liberate Cuba. Preparations are in active progress in this and other cities, as on the Island itself. When it will break forth is as yet unknown but from all in-dications all the plans of the leaders are nearly ripe and the first blow may be struck within a few days.

The movement is stated on good authority to be the largest and most completely organ-ized ever inaugurated for Caban indepenpatricts in this country ready to join in the war. In Cuba the revolutionist party is also actively preparing for the outbreak, and when the word is given, the forces on Spanish and United States soil will act in conjunction for the overthrow of the Spanish yoke.

The plans have been in progress for severa conths. New York has been made the headquarters, but so much secrecy has been main-tained that the news of the contemplated uprising only leaked out yesterday. Then it became known that for several months past meetings of Cubans have been held in the cities of Tampa and Key West, Fia., and during the past six weeks in New York, for the

cities of Tampa and Key West, Fla., and during the past six weeks in New York, for the purpose of organizing an army and raising funds to assist the residents of Cuba, who are dissatisfied with the Spanish Government. In New York three revolutionist clubs have been formed, and another club is being formed. The names of the clubs are the Los Independente, Jose Marti Club, named in honor of its promoter, Senor Jose Marti, the Uruguayan Consul; and the Penos Nuevo, Next Sunday the Porto Ricans of New York will form a revolutionary association.

The SPIRIT OF DISCONTENT.

A Cuban now in this city, who is one of the most prominent in the movement, says the people of Cuba are dissatisfied because the fipanish Government did not carry out the reforms which it promised after the late revolution. The clubs in this country, he said, have been thoroughly organized and their plans have been mapped out in good shape. The revolution, he added, would come very soon.

Two coasting vessels left this port a few week ago, and it was reported that each one carded a cargo of arms for Venezuelan insurrectionists, but it was said in Spanish Circles a few days ago that the arms were landed at the several other cities of this country revolutionists are holding meetings, raising money, purchasing equipments and planning a compaign. At the end of the last Cuban revolution there was a general stampede of those who took part in the in surrection for a country in which their lives were safer. Thousands of defeated Cubans settled in Florida were many found work as cigarmakers while others came to New York. They fer the people who are now preparing to make things lively in the country from which they fied for their lives.

Many of the most prominent exiled Cubans in New York tilink that the time has at last come for the liberation of the island. Reared in the atmosphere of insurrection, they welcome any opportunity to appose the Govern. come any opportunity to oppose the Govern-ment of Spain. During the past fifty years the little island has witnessed many attempts ment of spain. During the past nity years
the little island has witnessed many attempts
to plant a republic on its shores.
The most formidable of the Cuban revolutions, and the one which came nearest to a
successful issue to the revolutionists, was the
last one which swept over the island. Ten
long years of fighting passed before Spain
succeeded in crushing the spirit of the revolutionists who survived the battles of the war
and forcing the leaders to acknowledge that
the revolution was defeated. Even then,
aithough forced to lay down their arms and
surrender to the conquering armies of Spain,
the revolutionary leaders would not admit
that spain had beaten them.
"The followers of the revolution have not
been beaten," they said, "they have been
exterminated."
This rebellion is known as the revolution of

exterminated."
This rebellion is known as the revolution of Yara. It began on Oct. 10, 1868, and ended on Feb. 28, 1878. One of the most important results was that many of the leading Cuban citizens, who affiliated with the revolutionists, were forcen into exile.

izens, who amiliated with the revolutionists, were forcen into exile.

Cubans here are confident that if the present movement is successful it will result in an nexation to the United States.

THE TARA REVOLT.

When the Yara revolutionary movement was begun in 1868 the Cuban Junta in New York had raised more than \$2,000,000 in the United States. What inducements were held out to the many from whom money was obtained will perhaps never be known, but with it the Junta, with its headquarters constantly in the city of New York, organized expeditions for the transportation of troops, arms, artillery and ammunition to the revolutionary armies in Cuba and sent them out from the harbor of New York without molestation from the United States authorities.

revolutionary armies in Cuba and sent them out from the harbor of New York without molestation from the United States authorities.

Morales Lemas, one of the most influential and wealthy of these, was presiding officer of the Junta. He died in this city while the revolution was still in progress. Other members were Frederick Fesseo of Havana, who had charge of its financial affairs; Signors Alfora and Mora, who were charged with making purchases and arranging for the transportation of troops, arms, ammunition to Cuba; Dr. Armigo, Signor Bassora and Ponce de Leon. Dr. Armigo was a wealthy resident of Havana, who had fied to this country to avoid the confiscation of his property. He contributed \$300,000 of the wealth he had thus saved to the support of the revolution. Others who co-operated with or worked under the direction of the Junta in this city or at the seat of war were Jose Martil, Emulio Nunez, Francisco M. Corrillo, Thomas Estrada Paima, Aniecto G. Menocal, Dr. J. M. Parraga, Mine. Emilia Cassanova de Villaverde and the Americans, Gen. Thos. Jordan, Gen. W. A. O. Ryna and Capt. Peters, all of whom had seen service during the war of the rebellion. The majority of these are now residents of this city and are ready to again take up the battle for the cause of Cuban independence. Mr. Marti has an office at No. 40 Broadway. He is not yet 40 years of age and was less than 20 when he Jolned the forces of the revolution, He is to-day perhaps the most widely known orator and writer among the Spanish speaking residents of North and Central America. He is a native of Havana. Of the Americans who went with the Jordan expedition, Gen. Ryan is dead. He returned to New York after the Jordan expedition was successfully landed, and assisted in organizing the expedition who were with the Jordan expedition was successfully landed, and assisted in organizing the expedition who were the landing of the successfully landed, and assisted in organizing the expedition then and may be the revolution occupied its strongest positio

Before the revolution was over Jordan com-manded probably the most curious army that ever went into battle. It contained advent-urers, Cuban patriots, Americans, boys not yet over 15 years old and two companies of Chinese—the laundrymen of Cuba, who had been pressed into the service. R. A. C. NOT COMING TO THE FAIR.

SAN FRANCISCO, Cal., Feb. 26.—The Pacific
Mail Co.'s steamer City of New York, arrived Mail Co.'s steamer City of New York, arrived from Panama and way ports yesterday. When the steamer was in San Jose De Guatamela the election was just over. The rival candidates for the Presidency were Liennesta and Barillas. According to the statement made by passengers the former received the popular vote and was declared elected, but Barillas declined to hand over the reins of convenent to him. His arrows was that the Barillas decined to hand over the reins of government to him. His excuse was that the country was very much disturbed, and as trouble was expected, it would be impolite to change the government at that time. Fassengers assert that Barillas only wanted time to find out the sentiment of the army. If the troops will side with him, Barillas will refuse to resign.

NOT COMING TO THE FAIR. VALPARAISO, Feb. 26.-Lieut. Hartley, the World's Fair Commissioner to Chili, called upon the Chilian officials to-day. He was told politely, but somewhat frigidly that Chili, in ber present financial condition, was not in a position to take any part officially in the lair. Several wine growers and mining men, however, informed him that they are de-sirious of exhibiting. At least 200 Chillans wish to visit the fair providing that proper steamship and railroad rates can be made.

TROUBLES IN BRAZIL. New York, Feb. 26.—The British steamer Cyril, Capt. Oliphant, from the ports of Northern Brazil, brings news that great dissatisfaction prevails among the people at satisfaction prevails among the people at Manaos. On Jan. 31, a boat's crew from one of the Brazilian men-of-war went ashore and had a skirmish with the soldiers, during which two sailors and one soldier were killed and several wounded.

Mr. H. D. Pearce Effectually Cured of the Liquor Habit by the Gold Cure Treat-

The Gold Cure Institute at 2021 Olive street is still making fast friends and permanent cures by the successful application of its remedies for the liquor habit. The number of patients is increasing daily and the number of successes is growing in propor ber of successes is growing in proportion. So far the cure has met with nothing but unqualified praise from those taking it. Among the ardent desciples of the cure now is Mr. H. D. Pearce. Mr. Pearce had been a helpless victim of the liquor habit, and had lost his position, his seif-respect and that of his friends. They, thinking to save him, persuaded him to try the gold cure, and argued that there would be no harm done even if it failed. The most potent argument they brought and the one that secured his consent was that he could have all the whisky he wanted. This he considered a fine thing and made up his mind to indulge in unlimited quantities of good, free whisky, and he did for about one day, and then, much to his surprise, he found that he was growing to dislike his favorite drink, and that it no longer was the same source of pleasure as before. Within four days he had abandoned liquor entirely, and was beginning to see his way clear, where before everything looked hopeless and gloomy. Mr. Pearce has been a patient in the institute now for three weeks, and says most positively that no amount of money could induce him to drink again. He sees life through sober eves now and with a brain free from the hallucinations of alcohol and shattered nerves. His system is in good condition, a substantial breakfast now takes the place of the morning cocktail and his sleep is that of a quiet mind and not the insensibility of a liquor wearled system. Mr. Pearce see is but a type of many and has about it no unusual features. It is only the story of a hard drinker saved. tion. So far the cure has met

Proposed Silver Conference.

Washington, D. C., Feb., 26.-The depart ure of Secretary Foster on his European visit has revived considerable gossip in financial circles in this city and interest is sustained on the subject by the continued movement of old to Europe. It was said yesterday by nen who are in a position to be well informed in the matter that the probability of a bi-metallic international conference was stronger than it has been in a long time. A vast amount of work, it is said, has been done to pave the way for a conference of European governments with the United States looking toward a satisfactory agreement. Correspondence has passed between the principal authorities on linance in this country and England which is said to have resulted in a thorough conviction that Great Britain will favorably respond to any invitation from this country to discuss the question of establishing an international rate to between gold and silver.

PARIS, Feb. 26,-The trial of Louis Anistey for the murder of Baroness Dellard in this city a few months ago was opened at the Selne assizes to-day. The prisoner confessed crime. Baroness Deliard, who was the mother of a prominent official in the War Office, was murdered on Dec. 4 last. She lived in handsome apartments in a large alone at the time of the murder, but her maid returned home soon afterward and was also attacked by the murderer, being stabbed in the throat and breast from behind. The murderer then escaped, leaving his knife and the jewels he had intended to steal. He was a lieutenant of an infantry regiment in the French army and was retired only two days before he commmitted the crime. He immediately confessed, giving as his motive that he was driven to the deed by the necessity of his debts to save himself from dishonor. He said that he left Lyons in December, determined to get the money, even if he had to resort to crime. Before leaving he purchased a knife with which he committed the murder. Reaching Paris he went to the house of Baroness Dellard, who recognized him and led him to her room. He asked her alone at the time of the murder, but her maid him and led him to her room. He asked her him and led him to her room. He asked her if she was alone, and in replying in the affirmative he threw himself upon her and cut her throat. He then began to look around for money and valuables, but hearing the servant approaching he waited for her, intending to kill her also. In the struggle the knife fell from his hand, whereupon he fied without having secured any booty.

BAD GANG OF TRAMPS. PITTSBURG, Pa., Feb. 25.-Several days ago seven tramps were arrested near Burges own, Pa., for safe blowing, but two were afterwards discharged for lack of evidence afterwards discharged for lack of evidence. The tramps still in jail have been indentified as members of the gang that has been operating in Western Pennsylvania and Eastern oblio for four months and in that time have stolen nearly \$69,000 worth of goods and destroyed fully \$10,000 worth of property.

There are twenty-six or thirty men in the gang, and it is believed that one of the men discharged is James Bickman of New Haven, Coan., a notorious safe blower and bank robber, commonly known as "New Haven Jimmy." He was supposed to be a member of the notorious Kensington gang that years ago broke the Kensington bank in Philadelphia, but there he escaped conviction.

The disposition of the majority to legislate on nothing but the State jority to legislate on nothing the members an exceedingly tired feeling, which accounts for the large number of vacant seats every morning when the meeting is called to order.

Most of the discussion this morning was precipitated by a resolution offered by Hynes of Howell County. It was an exceedingly sarcastic effort aimed at C. B. Rollins, a son of the celebrated James S. Bollins. At the last commencement it appears that Mr. C. B. Rollins made a sharp attack on the Legislature to spite the facts that it voted the direct tax money amounting to \$55,000 to the State University in addition to the regular blennial allowance. The resolution was finally laid over.

Two Men's Throats Cut From Bar to

NEW ORLEANS, La., Feb. 26.-A desperate New Orleans, La., Feb. 26.—A desperate affair occurred here this morning which result in the death of Patrick Handley and Jim Cople. The two men last night had a fight with Mixe Waish. Waish was whipped and agreed to meet Handley this morning and fight it out. They met on Tchoupitoulas and Erato streets at 10 o'clock. After some words Handley drew a revolver. Waish pulled a rasor and with one blow almost severed Handley's head from his body. Handley fell to the ground a corpse. Cople then interfered and also had his throat cut from ear to ear. He died on the way to the hospital. Waish was arrested. All parties are steamship firemen.

Unemployed Coal Creek Miners Ready for Battle. CHATTANOOGA, Tenn., Feb. 28.-James Hawkins, member of the legistature from this county, who was elected on the labor platform, returned yesterday from Coal Oreek. He talked with soldiers and miners alike, and reports the condition very alarming. He said last night: "The situation is very serious. About one-half of the miners go around all the time with shotguns and Winchesters on their shoulders as if they were hunting squirrels. All carry pistols and make no secret of it. If you wake up any time at night you can bear a volley being fired. I interviewed at least twenty of the business men of Coal Creek and Briceville in regard to the miners firing on Fort Anderson last Thursday night and at other times. They were unanimous in saying that they believed it was the milita dolns the firing themselves. I also talked to some of the military officers. They claim that the camp was being fired upon, and a detail was sent out to arrest the parties shooting. The miners say that if any of their number is ever shot by the soldiers they will raily three thousand men and make a charge upon Fort Anderson."

Testimony in the Baker Trial in Virginia-Medical Experts.

ABINGDON, Va., Feb. 26.-The court roo has been crowded all morning with specta-tors anxious to hear the proceedings of the trial, in which Dr. Baker is charged with poisoning his wife. Mrs. Gilmer finished her evidence last evening. The prosecution lost nothing and probably gained ground by her nothing and probably gained ground by her testimony. Nine witnesses have been examined this morning. Most of them testified regarding the tell-tale letter written by Mrs. Gilmer.

One witness became confused when he identified a letter as one he had read when, really, he had never seen it before. Counsel for defense had given it to him on purpose to entrap him.

Dr. Washington testified that he sold Baker hydrocyanic acid but it was after the death of the latter's wife.

tance on either side about 8 o'clock this morning. The Mobile & Ohio passenger train, No. 1, was at a standstill on the bridge approach, headed westward, walting for orders to go ahead and cross the bridge.

There were three coaches filled with passengers. While the train stood hidden in the gray mist the Jacksonville & Southeastern passenger train No. 1 dashed up from behind and crashed into the rear end of it. For a few moments the scene was one of wild commotion. Passengers rushed pell-meil from their seats and made frantic efforts to jump from the cars. It was impossible for to tell what had really happened, and for some moments consternation reigned supreme. There was no second bump and word was soon passed along the line that only a rear end collision of small consequence had occurred. The passengers regained confidence and returned to the cars and picked up the scattered baggage which had been thrown in all directions by the shock. Frank Walt, the mail agent on the Mobile & Ohio, was standing at the door of his car when the jar occurred and was thrown violently to the ground. Though somewhat bruised his injuries are not of a serious nature. No serious hurt befell any of the passengers except a severe shaking up and some hard squeezing in trying to get out of the cars.

The cause of the collision is explained by the engineer of the Jacksonville locomotive, who said the log was so dense, he could not see the Mobile & Ohio train or properly read the signals on the tower. In consequence he proceeded very slowly, and fortunately be did, as a serious collision on the bridge trestie would have resulted in an appailing loss of life. The Jacksonville locomotive was so badly damaged that it had to be replaced. The hind car of the Mobile & Ohio was damaged slightly but was taken on to St. Louis. Trains from both sides were delayed on the bridge for three-quarters of an hour before traffic was resumed.

SOUTHWESTERN BAILBOAD ASSOCIATION The M., K. & T. Dissatisfied With the Present Management.

There was an unexpected development in the meeting of the Southwestern Railroad & Steamship Association. The meeting was called for the purpose of securing greater unanimity of action among Texas lines and to take steps to put a stop to rate-cutting. It developed, however, that an attack was to be made on Chairman Faithorne by the Missouri, Kansas & Texas. That road was not represented, none of the high officials being in the city, but a communication was sent expressing diseatisfaction with the manner in which the affairs of the association were being conducted, especial complaint being made in regard to expense. The letter stated that the salary paid Chairman Faithorne, sis,000, was too high, and that a manager thoroughly familiar with the Southwestern lines should be secured at a salary not exceeding \$8,000. The position of the Missouri, Kansas & Texas road is peculiar. It it is not a member of the association, having failed to sign the agreement entered into during July of last year, but has acted with the association and borne its part of the expense. to take steps to put a stop to rate-cutting pense.
The agreement under which the Southwestern Association has been operating was formulated in July of last year. The companies ignored this, and two, the Cromwell Steamship Line and the Missouri. Kan-

building association management will be discussed this evening by the Missouri Building Actions of the Section of the Control of the Control

way.

Chairman Faithorne was for many years
Chairman of one division of the Western
Freight Association, with headquarters at
Chicago, before he accepted the chairmanship of the Southwestern, and he is also one
of the Commissioners of the Western Traffic
Association. He is regarded as one of the
strongest traffic men in the country.

Christian Missionaries to Be Entertained—The Lenten Sesson.

To-morrow, Sunday and Monday will be red letter days for the lovers of missionary work among the Christian missionaries will and his band of Christian missionaries will arrive from the East to spend Sunday and Monday with the churches here, Rev. Azboil believes in the apostolic injunction to "go into all the world and preach," and further, that the Lord's people will provide for his wants. So strong is his faith and the faith of his associates that they are now journeying to foreign lands depending solely:

Miss. J. D. Pullis read the report of the Homeo of the Guardian Angel.

The Committee on Resolutions reported ten resolutions for adoption. The first expressed the sense of the conference that its work marked the breaking down of prejudice in the labors of charity in St. Louis. The second resolution was in request for the Legislatures to extend the age of consent to eighteen years and to make bastardy a penal offense.

The third resolution, for the suppression of houses of illifume.

The fifth resolution for orgent made the report of the Cornner. The fourth resolutio

That it is the sense of this conference that the barlot, in the hands of women, would result in leasening our labors as charitable workers, for and among women, because through the ballot women would have the nower with which to help themselves, would receive better pay for their labor, have an equal and not an inferior place in business, and helping themselves more, would need aid less. and helping themselves more, would need aid less.

The other resolutions thanked the ladies of
Centenary Church and the officers of the Conference for their efficient labors. All were
carried. After selecting committees to carry
on unfinished work and to edit the papers
read, the Conference adjourned at 20 clock.

The Alarming Increase in the Death Rate and the Prevalence of La Grippe Move Pope Lee to This Order.

ORDER issued by the Holy Roman Inquisition Jan. 14, 1890, reviews the prevalence and dangers of the various forms of influence existing in Europe and America, and

in Europe and America, and says:

"Wherefore, availing himself of the service of the Sacred Council of the Supreme Roman Universal Inquisition, the Holy Father by Apostolic Aushority Imparts to all Archbishops, Rishops and Ordinaries in all regions in which the afgrementioned disease prevails power to absolve the Faithful of their charge from the obligation of fasting and abstinence as long as in their judgment the state of the public health requires this Apostolic indulgence."

This is startling testimony to the prevalence of La Grippe and the diseases which it leaves in the wake to finish its deadly work.

Such an edict is never issued except in periods of wide-spread pestilence. Nothing during the history of the epidemic, which leaves thousands and millions of people in the clutches of CATARRH and CONSUMPTION, shows more completely the seriousness of this insiduous disease than this papal bull, which for a time strikes down a custom heary and venerable with age, a custom ingrafted upon the habits of mankind in the days of Moses.

The sufferers from La Grippe include three out of every five people in the world. To some it seems a severaction with painful effect, but to all it means a severaction with painful effect, but to all it means a severaction, which deposits in the system a terrible poison, that saps the vitality of the sufferer and develops diseases that operate so fatally as to increase the Death Hate in the Country Fronnasal, Bronchial and Fullmonary troubles one-half over that of Last winters.

Taylor at Sedalia.

SEDALIA, Mo., Feb. 26.—The excitement occasioned by the assault upon Mrs. Charles A. Taylor by an unknown negro, after robbing the lady and her husband, is growing instead of diminishing as the pursuit of the villain continues. A large party of citizens, assisted by bloodhounds, are on a supposed hot trail near California.

Three negro men named Henry Jackson, Marshal Evans and Rube Seaberry were arrested at Hughesville by Sheriff Smith this morning and lodged in jail nere on suspicion. A telegram was received from Van Buern, Ark., this morning, signed by the Chief of Police, saying: "Come and get your man," but no particulars or other information was given. An officer will leave here at once. Last night a dispatch was received from Joseph Winter, a Sedalia merchant, one of a posse that left for points east of there, requesting that twenty-five men be sent to Tipton. A negro who answers the description of Mirs. Taylor's assallant to a dot, was trailed into the woods. A posse was quickly organized and left for the scene on a special train. No further tidings have been received from this clew. When the man is caught a repetition of the Texarkana roasting may be looked for.

WELL-PLANNED REVOLUTIONARY HOVEMENT UNDER WAY.

ending Their Aid to Lift the Spanish the Men Who Led Them-

when the word is given, the forces on Spanish and United States soil will act in conjunction for the overthrow of the Spanish yoke.

The plans have been in progress for several months. New York has been made the headquarters, but so much secrety has been maintained that the news of the contemplated uprising only leaked out yesterday. Then it became known that for several months past meetings of Cubans have been held in the cities of Tampa and Key West, Fla., and during the past six weeks in New York, for the purpose of organizing an army and raising funds to assist the residents of Cuba, who are dissatisfied with the Spanish Government. In New York three revolutionist clubs have been formed, and another club is being formed. The names of the clubs are the Los independente, Jose Marti Club, named in moner of its promoter, Senor Jose Marti, the Pruguayan Consul; and the Penos Nuevo. Next sunday the Porto Ricans of New York will form a revolutionary association.

A Cuban now in this city, who is one of the most prominent in the movement, says the people of Cuba are dissatisfied because the spanish Government did not carry out the reforms which it promised after the late revolution, he added, would come very soon. Two consting vessels left this port a few weeks ago, and it was reported that each one arried a cargo of arms for Venezuelan insurrectionists, but it was said in Spanish circles a few days ago that the arms were landed at the years of the country in which their Juhan nor on the was a general tramped of those who took part to the interestical for a country in which their Juhan for a country in which their landing a compaign. At the end of the last Juhan revolution there was a general trampede of those who took part to the interestical for a country in which their landing a compaign.

York had raised more than \$2,000,000 in the United States. What inducements were held out to the many from whom money was obtained will perhaps never be known, but with it the Junta, with its headquarters constantly in the city of New York, organized expeditions for the transportation of troops, arms, artillery and ammunition to the revolutionary armies in Cuba and sent them out from the harbor of New York without molestation from the United States authorities.

bers were Frederick Fesseo of Havana, who had charge of its financial affairs; Signors Aifera and Mora, who were charged with making purchases and arranging for the transportation of troops, arms, ammunition to Duba; Dr. Armigo, Signor Bassora and Ponce de Leon. Dr. Armigo was a wealthy resident of Havana, who had fied to this country to avoid the confiscation of his property. He contributed \$500,000 of the wealth he had thus saved to the support of the revolution. Others who co-operated with or worked under the direction of the Junta in this city or at the seat of war were Jose Martil, Emulio Nunez, Francisco M. Corrillo, Thomas Estrada Faima, Aniceto G. Menocal, Dr. J. M. Parraga, Mine. Emilia Cassanova de Villaverde and the Americans, Gen. Thos. Jordan, Gen. W. A. C. Ryan and Capt. Peters, all of whom had seen service during the war of the rebellion. The majority of these are now residents of this city and are ready to again take up the battle for the cause of Cuban independence. Mr. Martil has an office at No. 40

According to the statement made by passengers the former received the popular vote and was declared elected, but Barillas declined to hand over the reins of government to him. His excuse was that the country was very much disturbed, and as trouble was expected, it would be impolited to change the government at that time. Passengers assert that Barillas only wanted time to find out the sentiment of the army. If the troops will side with him, Barillas will refuse to resign.

BEYOND TEMPTATION. Mr. H. D. Pearce Effectually Cured of the Liquor Habit by the Gold Cure Treat-

is still making fast friends and permanent cures by the successful application of its remedies for the liquor habit. The number cures by the successful application of its remedies for the liquor habit. The number of patients is increasing daily and the number of successes is growing in proportion. So far the cure has met with nothing but unqualified praise from those taking it. Among the ardent desciples of the cure now is Mr. H. D. Pearce. Mr. Pearce had been a helpless victim of the liquor habit, and had lost his position, his self-respect and that of his friends. They, thinking to save him, persuaded him to try the gold cure, and argued that there would be no harm done even if it failed. The most potent argument they brought and the one that secured his consent was that he could have all the whisky he wanted. This he considered a fine thing and made up his mind to indulze in unlimited quantities of good, free whisky, and he did for about one day, and then, much to his surprise, he found that he was growing to dislike his favorite drink, and that it no longer was the same source of pleasure as before. Within four days he had abandoned liquor entirely, and was beginning to see his way clear, where before everything looked hopeless and gloomy. Mr. Pearce has been a patient in the institute now for three weeks, and says most positively that no amount of money could induce him to drink again. He sees life through soher eyes now and with a brain free from the hallucinations of alcohol and shattered nerves. His system is in good condition, a substantial breakfast now takes the place of the morning cocktail and his sleep is that of a quiet mind and not the insensibility of a liquor wearled system. Mr. Pearce's case is but a type of many and has about it no unusual features. It is only the story of a hard drinker saved.

Judge Thayer Renders An Important De-

Judge Thayer of the United States Distric court issued a decree this morning declaring fifty naturalization papers granted by the Court of Criminal Correction to be null and void. During the election fraud trials of last year District Attorney Reynolds was made aware of the manner in which citizen papers were obtained in the Court of Criminal Correction just before the election by politicians who swore they knew the applicants for papers and knew they had come to this country before they were is years of age. Fifty false amidavits were discovered by the attorney who is confident there are several hundred more and he asked the court for a decree setting aside the papers obtained by fraud. Paris, Feb. 26,—The trial of Louis Anistey for the murder of Baroness Deliard in this city a few months ago was opened at the Seine assizes to day. The prisoner confessed his guilt and gave a detailed account of the crime. Baroness Deliard, who was the mother of a prominent official in the War office, was murdered on Dec. 2 last. She lived in handsome apartments in a large house in the Boulevard du Temple. She was alone at the time of the murder, but her maid returned home soon afterward and was also attacked by the murderer, being stabbed in the throat and breast from behind. The murderer then escaped, leaving his knife and the jewels he had intended to steal. He was a lieutenant of an infantry regiment in the French army and was retired only two days before he committed the crime. He immediately confessed, giving as his motive that he was driven to the deed by the necessity of his debts to save himself from dishonor. He said that he left Lyons in December, determined to get the money, even if he had to resort to crime. Before leaving he purchased a knife with which he committed the crime. Reaching Paris he went to the house of Baroness Dellard, who recognized him and led him to her room. He asked her if she was alone, and in replying in the affirmative he threw himself upon her and silvent of the mand to see the report.

when the word is given, the forces on Spanish and United States soil will act in conjunction for the overthrow of the Spanish yoke.

ment of spain. During the past hity years the little island has witnessed many attempts to plant a republic on its shores.

The most formidable of the Cuban revolutions, and the one which came nearest to a successful issue to the revolutionists, was the last one which swept over the island. Ten long years of fighting passed before Spain succeeded in crushing the spirit of the revolutionists who survived the battles of the war and forcing the leaders to acknowledge that the revolution was defeated. Even then, although forced to lay down their arms and surrender to the conquering armies of Spain, the revolutionary leaders would not admit that Spain had beaten them.

"The followers of the revolution have not been beaten," they said, "they have been exterminated."

been beaten. They said, they have been exterminated."

This rebellion is known as the revolution of Yara. It began on Oct. 10, 1868, and ended on Feb. 28, 1878. One of the most important results was that many of the leading Cuban citiesns, who affiliated with the revolutionists, were forcen into exile.

SPANISH REPUBLICS. BARILLAS WILL PERPETUATE HIS RULE-CHIL

BARILLAS WILL PERFETUATE HIS RULE—CHILI NOT COMING TO THE PAIR.

SAN PRANCISCO, Cal., Feb. 26.—The Pacific Mail Co.'s steamer City of New York, arrived from Fanama and way ports yesterday. When the steamer was in San Jose De Guatamela the election was just over. The rival candidates for the Presidency were Liennesta and Barillas. According to the statement made by passengers the former received the popular vote and was declared elected, but Barillas declined to hand over the reins of government to him. His excuse was that the government to him. His excuse was that the country was very much disturbed, and as trouble was expected; it would be impolitic to change the government at that time. Passengers assert that Barillas only wanted time to find out the sentiment of the army. If the troops will side with him, Barillas will refuse to resign.

Not comine to the Pair.

Valparaiso, Feb. 26.—Lieut. Hartley, the World's Fair Commissioner to Chill, called upon the Chilian officials to-day. He was told politely, but somewhat frigidly that Chill, in her present financial condition, was not in a position to take any part officially in the fair. Several wine growers and mining men, however, informed him that they are desirious of exhibiting. At least 200 Chilians wish to visit the fair providing that proper steamship and railroad rates can be made.

NEW YORK, Feb. 26.-The British steam Cyril, Capt. Oliphant, from the ports of Northern Brazil, brings news that great dis-Northern Brazil, brings news that great dis-satisfaction prevails among the people at Manaos. On Jan. 31, a boat's crew from one of the Brazilian men-of-war went ashore and had a skirmish with the soldiers, during which two satiors and one soldier were killed and several wounded.

Manaos is the capital of the State of Ama-zonos, in Northern Brazil, on the Rio Negros, near its confluence with the Amazon. It has a large trade and a population of 6,000.

The plans have been in progress for several months. New York has been made the bead quarters, but so much secrecy has been maintained that the news of the contemplated uprising only leaked out yesterday. Then it became known that for several months past meetings of cubans have been held in the cities of Tampa and Key West, Fin., and during the past six weeks in New York, for the purpose of organizing an army and raising funds to assist the residents of Cuba, who are dissatisfied with the Spanish Government. In New York three revolutionist clubs have been formed, and another club is being formed. The names of the clubs are the Los Independente, Jose Marti Club, named in honor of its promoter, senor Jose Marti, the Uraguayan Consul; and the Penos Nuevo. Next Sunday the Porto Ricans of New York will form a revolutionary association. THE SPHRIT OF DISCONTENT.

A Cuban now in this city, who is one of the most prominent in the movement, says the people of Cuba are dissatisfied because the Spanish Government did not carry out the reforms which it promised after the late revolution. The clubs in this country, he said, have been thoroughly organized and their plans have been mapped out in good shape. The revolution, he added, would come very soon.

Two coasting vessels left this port a few weeks ago, and it was reported that each one carried a cargo of arms for Veneruelan insorrectionists, but it was said in Spanish circles a few days ago that the arms were landed at Rey West, and were destined for use in Cuba. In several other cities of this country revolutionists are holding meetings, raising money, purchasing equipments and planning a compaign. At the end of the last Cuban revolution there was a general stampede of those who took part in the in surrection for a country in which their lives were safer. Thousands of defeated Cubans settled in Florida were many found work as cigarmakers while others came to New York. They are the people who are now preparing to make things lively in the country from which they field for NICARAGUA CANAL. PANAMA, Feb. 26 .- Work on the Nicaragua Canal is not progressing very rapidly, although men are constantly at work surveying and laying out the line of the canal. Others are engaged in building houses for laborers who are expected next spring.

Mr. H. D. Pearce Effectually Cured of the Liquor Habit by the Gold Cure Treat-

ment. The Gold Cure Institute at 2021 Olive stree is still making fast friends and permanent cures by the successful application of its remedies for the liquor habit. The number of patients is increasing daily and the num ber of successes is growing in proportion. So far the cure has met with ber of successes is growing in proportion. So far the cure has met with nothing but unqualified praise from those taking it. Among the ardent desciples of the cure now is Mr. H. D. Pearce. Mr. Pearce had been a helpless victim of the liquor habit, and had lost his position, his self-respect and that of his friends. They, thinking to save him, persuaded him to try the gold cure, and argued that there would be no harm done even if it failed. The most potent argument they brought and the one that secured his consent was that he could have all the whisky he wanted. This he considered a fine thing and made up his mind to indulge in unlimited quantities of good, free whisky, and he did for about one day, and then, much to his surprise, he found that he was growing to dislike his favorite drink, and that it no longer was the same source of pleasure as before. Within four days he had abandoned liquor entirely, and was beginning to see his way clear, where before everything looked hopeless and gloomy. Mr. Pearce has been a patient in the institute now for three weeks, and says most positively that no amount of money could induce him to drink again. He sees life through sober eves now and with a brain free from the hallucinations of alcohol and shattered nerves. His system is in good condition, a substantial breakfast now takes the place of the morning cocktail and his sleep is that of a quiet mind and not the insensibility of a liquor wearled system. Mr. Pearce's case is but a type of many and has about it no unusual features. It is only the story of a hard drinker saved.

Theex-President attracted much at-tention as he walked down the station plat. form, and at the doorway was forced to run the gauntlet of a hundred anxious eyes. He the gauntlet of a hundred anxious eyes. He looked rather travel-worn, but answered a reporter's greeting in a cheerful tone. "I don't know of anything of interest that I can say for publication," he said. "I'm tired out, and am going right to Lakewood to rest." When asked about the proposed presentation of his name by Frank Hurd in the Chicago convention, Mr. Cleveland said that he was not prepared to discuss the subject.

Proposed Silver Conference.

Washington, D. C., Feb., 26.—The departure of Secretary Foster on his European visit has revived considerable gossip in financial on the subject by the continued movement of gold to Europe. It was said yesterday by men who are in a positien to be well informed in the matter that the probability of a bi-metallic international conference was of a bi-metallic international conference was stronger than it has been in a long time. A vast amount of work, it is said, has been done to pave the way for a conference of European governments with the United States looking toward a satisfactory agreement. Correspondence has passed between the principal authorities on finance in this country and England which is said to have resulted in a thorough conviction that Great Britain will favorably respond to any invitation from this country to discuss the question of establishing an international rate to between gold and silver.

Morales Lemas, one of the most influential and wealthy of these, was presiding officer of the Junta. He died in this city while the revolution was still in progress. Other members were Frederick Fesseo of Havana, who had charge of its financial affairs; Signors Alfera and Mora, who were charged with making purchases and arranging for the transportation of troops, arms, ammunition to Cuba; Dr. Armigo, Signor Bassora and Ponce de Leon. Dr. Armigo was a wealthy resident of Havana, who had fied to this country to avoid the confiscation of his property. He contributed \$50,000 of the wealth he had thus saved to the support of the revolution. Others who co-operated with or worked under the direction of the Junta in this city or at the gest of war were Jose Martil, Emulio Nunez, Prancisco M. Corrillo, Thomas Estrada Palma, Aniceto G. Menocal, Dr. J. M. Parraga, Mine. Emilia Cassanova de Villaverde and the Americans, Gen. Thos. Joruan, Gen. W. A. U. Ryan and Capt. Peters, all of woom had seen service during the war of the rebellion. The majority of these are now residents of this city and are ready to again take up the battle for the cause of Cuban independence. Mr. Marti has an office at No. 40 Broadway. He is not yet 40 years of age and was less than 20 when he joined the forces of the fevolution. He is to-day perhaps the most widely known orator and writer among the Spanish speaking residents of North and Contrait America. He is a native of Havana. Paris, Feb. 26,-The trial of Louis Anistey

for the murder of Baroness Deliard in this city a few months ago was opened at the seine assizes to day. The prisoner confessed its guilt and his guilt and gave a detailed account of the crime. Baroness Bellard, who was the mother of a prominent omicial in the War Office, was murdered on Dec. 4 last. She lived in handsome apartments in a large house in the Boulevard du Temple. She was alone at the time of the murder, but her maid returned home soon afterward and was also attacked by the murderer, being also attacked by the murderer, being stabbed in the throat and breast from behind. The murderer then escaped, leaving his knife and the jewels he had intended to steal. He was a lieutenant of an infantry regiment in the French army and was retired only two days before he communited the crime. He immediately confessed, giving as his motive that he was driven to the deed by the necessity of his debts to save himself from dishonor. He said that he left Lyons in December, determined to get the money, even if he had to resort to crime. Before leaving he purchased a knife with which he committed the murder. Reaching Paris he went to the house of Baroness Dellard, who recognized him and led him to her room. He asked her if she was alone, and in replying in the affirmative he threw himself upon her and cut her throat. He then began to look around for money and valuables, but hearing the cut her throat. He then began to look around for money and valuables, but hearing the servant approaching he waited for her, in-tending to kill her also. In the struggle the knife fell from his hand, whereupon he fiel' without having secured any booty. Lieut. Anastay has been declared guilty of the murder of Mme. Belland and sentenced

PITTSBURG, Pa., Feb. 25.—Several days ago seven tramps were arrested near Burges town, Pa., for safe blowing, but two were afterwards discharged for lack of evidence. The tramps still in jail have been indentified as members of the gang that has been operating in Western Pennsylvania and Eastern Ohio for four months and in that time have stolen nearly \$60,000 worth of goods and destroyed fully \$10,000 worth of property.

There are twenty-six or thirty men in the gang, and it is believed that one of the men discharged is James Bickman of New Haven, Coan., a notorious safe blower and bank robber, commonly known as "New Haven Jimmy." He was supposed to be a member of the notorious Kensington gang that years ago broke the Kensington bank in Philadelphia, but there he escaped conviction. own. Pa., for safe blowing, but two were

DESERTING PRISON GUARDS SENTENCED. KNOXVILLE, Tenn., Feb. 26.—The trial of hree men at Coal Creek, charged with desertion, began there yesterday. Officers Frank Woolfolk, Chandler, Brown, Draughtan and Shaun complete the court-martial. The men demand separate trials. Private Larrabee of Memphis was tried to-day and sentenced. This sentence will be the first in Nashville. The prisoner can be sent to prison for eignteen months at hard labor, deprived of pay and dishonorably discharged. As the minimum punishment is \$10 fine and a dishonorable discharge, ft is surmised that Larrabee was given a prison sentence, for the warden at Coal Creek was called in to know if he could take him. He said he could not work him with the other convicts. A deserter from the Knoxville company was arrested to-night. He will be tried. ind Shaun complete the court-martial. The

PRAYER AND PROFAMITY. Degislators Wrangitag Over the Univers-

ity Matter.

JEFFERSON CITT, Mo., Feb. 26.—The House opened with prayer and closed with profanity this morning. The disposition of the majority to legislate on nothing but the State University has given many of the members an exceedingly tired feeling, which accounts for the large number of vacant seats every morning when the meeting is called to order. Most of the discussion this morning was precipitated by a resolution offered by Hynes of Howell County. It was an exceedingly sarcastic effort aimed at C. B. Rollins, a son of the celebrated James S. Rollins. At the last commencement it appears that Mr. C. B. Rollins made a sharp attack on the Legislature to spite the facts that it voted the direct tax money amounting to \$55,000 to the State University in addition to the regular blennial allowance. The resolution was finally laid over.

Chairman Lyman of the Appropriation

nial allowance. The resolution was finally laid over.
Chairman Lyman of the Appropriation Committee presented a report asking \$25,000 to pay the expenses of the satira session. This provoked a long winded discussion, the Republicans accusing the Democrats of rank extravagance and even larceny. Aydelott of Warren, Wurdeman of St. Louis County and Tubbs of Osage held up up the Republican end, while Lyman, Julian and others defended the report.

her adopted child. She said that Rebecca was a good girl and that her conduct was was a good girl and that her conduct was always entirely proper in her house and that she never knew her to do anything 'improper until she met Mr. Catchings. Mrs. Mullally then related some of the incidents that occurred at the house just before she left to make her home elsewhere. She testified substantially as follows: "Catchings wanted to take her out to Creve Cœur Lake and I sald her that she could not so with my consubstantially as follows: "Catchings wanted to take her out to Creve Cœur Lake and I told her that she could not go with my consent. She did not go that time, but a few days later he took her away and they went to Creve Cœur Lake. He did not bring her Creve Cour Lake. He did not bring her back when he promised, but not until 50 °Clock in the afternoon. She came home very sick. She was then 18 years old, and when I told her that she couldn't keep company with Catchings, she said she would leave my house then and go somewhere else. She brought home a novel.once and said that Catchings gave it to her and that it was a good book. She said always that Catchings was a perfect gentleman. I blame Catchings for everything that has happened to the girl. She roomed at several places and I always heard afterwards that she was with Catchings. I saw them once together standing on Fiffeenth and Pine gtreets."

Mrs. Mullally broke down several times dur-

focted the entire time.

Drs. R. M., King and Hilliard, who were called in to attend Miss Mullally just before death, testified but they knew nothing of the girl's troubles except that she had been the subject of criminal medical practice.

Dr. Van Gerhart, whose photograph was found among Rebecca's effects, testified that he treated her last November for a disease. He knew nothing in regard to the cause of the girl's death or her love affairs.

MRS. SANDER'S TESTIMONY.

MRS. Florine Sanders, the landlay of the house at which Miss Mullally roomed, was the next witness called. She related, as has already been told in the papers, how Miss Mullally roomed was the next witness called. She related, as has already been told in the papers, how Miss Mullally came to room at ner house. She knew very little about the girl, but she seemed to be a nice lady and received avery little company at the house. She received a basket of flowers once and said they came from a little beau of hers. She went away about two weeks ago, saying she was going to see a Mrs. Hite on Cora avenue. She was going to see in birthday party that was to be held by Mrs. Hite's little girl that day. She went away and was gone about ten days, and then came back looking terrible. Beckle claimed that she didn't go to Mrs. Hite's, but had gone to see a lady on Morgan street and had been taken sick there. She didn't tell the lady's name. From that time until she died she was very sick at witness' house. Mrs. Hite called on her twice and Mrs. Hastings was there twice. Notes came two or three times from Mrs. Hastings for Beckle. They were brought by a colored boy. Mrs. Hastings was heavily velled both times that she came. Witness suspected that something was wrong with Beckle, but was not sure of

the following Tuesday, but her baby and husband were both sick that day, and she had to stay at home. She never saw Beckle allve again. Gatchings was sliss Mulially's most intimate gentleman friend, and she was even more fond of him than of King, the man to whom she was engaged to be married. She and king were to be married at witness' home, the lst of last January, but it was postponed by Beckle. The two pictures of Catchings in the possession of the Coroner were given to wiss Mulially by Catchings himself and he had two pictures also of Miss Mulially.

Adam Lynn, an elderly gentleman, testified that he was acquainted with Miss Mulially and had known her since last April. He met her first at his boarding-house on Pine street. They used to sit out on the porch together fiter snpper some evenings with other loarders, and he took her out several times to an ice-cream saloon in the vicinity. He ound out from her that she was despertely in love with her "little man," as she called him, but als name she never mentioned. McGuire himself admits that it was his intention to kill the woman, and says that it is true that his St. Louis saloon is frequented by thieves, but denies that he was in any way interested in their work or ever cognizant of their plans. He says that Jennie lived with him four years as his wife, and that for her sake he reformed and forsook his earlier associations. Then she stole his money and eloped with McLean, and it was jealousy and a desire for revenge that led him to shoot her.

nothing and probably gained ground by her testimony. Nine witnesses have been examined this morning. Most of them testified regarding the tell-tale letter written by Mrs. Gilmer.

One witness became confused when he identified a letter as one he had read when, really, he had never seen it before. Counsel for defense had given it to him on purpose to entrap him.

Dr. Washington testified that he sold Baker hydrocyanic acid but it was after the death of the latter's wife.

'Then it was for the poisoning of Mr. Gilmer?' said counsel.

'Dr. Baker was sick yesterday and had to leave the room a time or two. He is present to-day. Mrs. Gilmer was also sick, but able to finish testifying.

CONFLICTS AT CREEDE.

Threatening Situation at the New Mining Town in Colorado. CREEDE, Colo., Feb. 26.—Signs of trouble multiply at Creede. The "settlers" are arrayed against the speculators, and if at the auction of town lots this afternoon agents of the wealthy syndicate from Denver and the East outbid the men who have squatted on the Wason lease, it will require all the force of the State militia to dispossess them. Gov. Routt arrived here yesterday, and

this fact has only intensified the excitement among the citizens, as there is a general feeling that the speculators will try to corner all the lots to the detriment of the people who have built houses and are living on the land. A mass-meeting was held last night and the unanimous intention was expressed to make it unpleasant for any one who may attempt to outbid and oust the present occupants of the land.

To understand the situation a word of explanation is necessary. Creede is a brannew town, springing into existence a few months ago because of rich mineral deposits found along the valley of Cripple Creek on which it is located. The land on which it is situated is held by M. V. B. Wason under a lease from the State of Colorado drawn in 1885. The land was leased for grazing purposes at a nominal rental, at a time when its richness in mineral was unknown. By the terms of the lease Wason's use of the land was restricted to the purpose named in his contract with the State. Now the State claims that the lease is now daily committing breaches of the provisions of his lease; that he has practically abandoned the occupancy of this ground for agricultural and grazing purposes and has divided a large portion of it into lots and blocks, and has leased from 400 to 500 lots for indiscriminate town purposes, at rentals of from \$2 to \$10 per lot. Therefore the State Land Board steps in and declares the Wason lease forfeited and will to-day sell to the highest bidder the lots which Wason has disposed of to settlers.

At the mass meeting last night it was declared:

That we, the lessees and settlers upon said ground

This interesting and intricate question in building association management will be discussed this evening by the Missouri Building Association League, at its meeting in Odd. Fellows' Hall. The object of the discussion, which will be participated in by such practical men as Henry H. Kotthoff, Wm. Zink, D. J. Hayden, J. B. Follett, A. J. GAVE THEM A SCARE Iwo Trains Collide on the East Approach

of the Bridge. A collision occurred on the east approach of the bridge this morning which might have resulted in a terrible fatality, but which, foranately, only shook up two train loads of passengers and scared them pretty badly for

a few moments.

The bump was caused by the dense fog which hung over the river and for some dis-tance on either side about 8 o'clock this morning. The Mobile & Ohio passenger train, tance on either side about 8 o'clock this morning. The Mobile & Ohio passenger train, No. 1, was at a standstill on the bridge approach, headed westward, waiting for orders to go ahead and cross the bridge.

There were three coaches filled with passengers. While the train stood hidden in the gray mist the Jacksonville & Southeastern passenger train No. 1 dashed up from behind and crashed into the rear end or it. For a few moments the scene was one of wild commotion. Passengers rushed pell-meil from their seats and made frantic efforts to jump from the cars. It was impossible for to tell what had really happened, and for some moments consternation reigned supreme. There was no second bump and word was soon passed along the line that only a rear end collision of small consequence had occurred. The passengers regained confidence and returned to the cars and picked up the scattered baggage which had been thrown in all directions by the shock. Frank Wait, the mall agent on the Mobile & Ohio, was standing at the door of his car when the jar occurred and was thrown violently to the ground. Though somewhat bruised his injuries are not of a serious nature. No serious hurt befell any of the passengers except a severe shaking up and some hard squeezing in trying to get out of the cars.

The cause of the collision is explained by the engineer of the Jacksonville locomotive, who said the tog was so dense, be could not see the Mobile & Ohio train or properly read the signals on the tower. In consequence he broceeded very slowly, and fortunately he did, as a serious collision on the bridge trestle would have resulted in an appaling loss of life. The Jacksonville locomotive was so badly damaged that it had to be replaced. The hind car of the Mobile & Ohio was damaged slightly but was taken on to St. Louis. Trains from both sides were delayed on the bridge for three-quarters of an nour before traffic was resumed.

The M., K. & T. Dissatisfied With the Present Management.

There was an unexpected development in Steamship Association. The meeting was called for the purpose of securing greater PILLS. unanimity of action among Texas lines and to take steps to put a stop to rate-cutting. It developed, however, that an attack was to be made on Chairman Faithorne by the Missouri, Kansas & Texas. That road was not represented, none of the high officials being in the city, but a communication was sent expressing dissatisfaction with the manner in which the affairs of the association were being conducted, especial complaint being made in regard to expense. The letter stated that the salary paid Chairman Faithorne, \$15,000, was too high, and that a manager thoroughly familiar with the Southwestern lines should be secured at a salary not exceeding \$8,000. The position of the Missouri, Kansas & Texas road is peculiar. It it is not a member of the association, having railed to sign the agreement entered into during July of last year, but has acted with the association and borne its part of the expense. unanimity of action among Texas lines and

western Association has been operating was formulated in July of last year. The companies ignored this, and two, the Cromwell steamship Line and the Missouri. Kansas & Texas, refrained from doing so, but have acted under it. Of late there have have been many complaints of rate-cutting and the non-signing lines cannot be disciplined. It is for the purpose of endeavoring to arrive at a more satisfactory basis that the present meeting was called. Nothing was done this morning beyond discussing the matter generally. The meeting will probably continue for several days.

The present complications are regarded by many as indications of an intention in certain quarters to break up the association. Chairman Faithonre declined to speak concerning the matter, as he was personally attacked. Others state that his management has given satisfaction to the great majority of the lines in the association, and they are most unwilling to dispense with his services because a single line not in the association objects to him. On the other hand it is argued that for the M., K. & T. to act independently would utterly upset rates, and be equivalent to a dissolution. The meeting this morning was devoted to consideration of the various questions involved, but no definitive action was taken, as it was desired to hold further conference with the Mr. Faitherne had handed in his resignation but that no action had been taken on it. Those present at the meeting were Richard Gray, General Traffic Manager Southern Pacific, W. B. Biddle, Assistant Fraffic Manager Missouri Pacific iron Mountain, and C. A. Parker, Freight Traffic Manager St. Louis & Santrancisco; E. H. Hinton, General Freight Agent Texas & Pacific; W. B. Doddridge, General Manager Otton Belt or St. Louis Southwestern; L. F. Chairman Faithorne was for many years Chairman of one division of the Western Freight Association, with headquarters at Chicago, before he accepted the chairman-ship of the Southwestern, and he is also one of the Commissioners of the Western Traffic Association. He is regarded as one of the strongest traffic men in the country.

A telegram was received from Van Buren, Ark., this morning, signed by the Chief of Police, saying: "Come and get your man," but no particulars or other information was given. An officer will leave here at once. Last night a dispatch was received from Joseph Winter, a Sedalia merchant, one of a posse that left for points east of here, requesting that twenty-five men be sent to Tipton. A negro who answers the description of Mrs. Taylor's assailant to a dot, was trailed into the woods. A posse was quickly organized and left for the scene on a special train. No further tidings have been received from this clew. When the man is caught a repetition of the Texarkana roasting may be looked for.

Let us hope that the people who habitually dis-regard their health will reach that desirable place, and avoid the locality which is less de-sirable as an eternal residence on account of the heat and surroundings generally. But while we tarry in this vale of tears, why should we volntarily endure the tortures of dyspepsia when a systematic use of Hostetter's Stomach Bitters will rid us of the atrocious malady which—unless physicians are very much at fault—tends to shorten the term of our existence. Heartburn, shorten the term of our existence. Rearround, billiousness, constipation almost always accompany this complaint and are symptomatic of it. These are all extinguished by the Bitters, which also conquers completely maleras, rheumstism, nervousness and debility. Since the appearance of "la grippe" it has shown a singular mastery over this formidable complaint that has carried off so many of our brightest and best.

This is startling testimony to the prevalence of La Grippe and the diseases which it leaves in its wake to finish its deadly work.

Such an edict is never issued except in periods of wide-spread postilence. Nothing during the history of the epidemic, which leaves thousands and millions of people in the clutches of CATAREH and CONSUMPTION, shows more completely the seriousness of this insidubus disease than this papal bull, which for a time strikes down a custom hoary and venerable with age, a custom ingratted upon the habits of mankind in the days of Moses.

The sufferers from La Grippe include three out of every dive people in the world. To some it seems a mere cold with painful effect, but to all it means a severe affliction, which deposits in the system a terrible poison, that saps the vitality of the sufferer and develops diseases that operate so fatally as to inchease THE DEATH RATE IN THE COUNTER FROM NASAL, BRONCHIAL AND PULMONARY TROUBLES ONE-HALF

THE DEATH RATE IN THE COUNTRY FROM NASAL, BRONCHIAL AND PULMONARY TROUBLES ONE-HALF OVER THAT OF LAST WINTER.

It is a pressing duty that devolves on every man, woman and child who has suffered from La Grippe to see that the results, the catarrhal conditions that it leaves, are thoroughly cared while care is possible. Catarrh is often the condition that in the first place INVITES AND CAUSES La Grippe. It is the condition La Grippe LEAVES BEHIND, INVITING FRESH ATTACKS, making, as it were, a home for itself for next reason. This is the proper time to take special treatment for La Grippe and its after affects, such as nasal catarrh, bronchitis, inciplens consumption and chronic coughs. Drs. Copeland and Allinder have met with unparalleled success in their treatment of La Grippe and its resultant disorders, as they belong distinctively to that family of diseases of which they make a specialty. Their offering a merely nominal rate for February places their services within the reach of all.

It would be wrong in principle and bad in precedent to grant the appropriation asked for by the Chicago commission. Last October Caspar Ronsleck opened a saloon on the block, at the corner of Goode venue and St. Ferdinand. He had no petition and so license. The outraged people of the association prosecuted him through the courts, and although Collector Ziegenhein courts, and although Collector Ziegenhein in defiance of the law, that makes his post-tion in these matters a purely judicial one, tried to protect the saloonkeeper and keep him in the corner saloon, the police court fined him \$300. The people on the block then thought the matter was decided in their favor, but it was not. Ronsieck turned over his saloon to a man named Otto H. Lang and Ronsieck had seventeen of those named on their petition before the officers of the association found out what they were doing. Secretary Woods and Edward Hudson undertook to represent the association before the Collector and prevent the issuing of the license. They went to the Collector's office and asked if he was going to issue a license to Lang. to issue a license to Lang.

"That two citizens looked at each other without saying a word for an instant.

"That eads it, Hudson," said Secretary Woods.

The story of the license, as just told, is an agreed statement of facts between Collector Ziegenhein, Deputy Wurtzburger and Secretary Woods, The Collector rested his entire defense upon the opinion he had got from Counselor Marshall, after Attorney Martin had persuaded him to ask for it. The opinion is very short and applied to this particular case. The Counselor does not say where he got the facts on which to base the opinion, but they must have come from either the Collector or Attorney Martin, as Secretary Woods was not asked for any. At any rate, the opinion informs the Collector that in the case of the petition of Otto Lang, he must act on the petition as originally presented, without regard to the subsequent withdrawals, which should not affect the Collector's decision.

The opinion is regarded by Collector Ziegenhein as meaning that after one has signed a saloon petition the name cannot be withdrawn. A GOOD TILUSTRATION OF THE TRICKS

signed a saloon petition the name cannot be withdrawn.

Secretary Woods said to-day: "I know the dramshop law thoroughly, and I have had much more experience with it than Collector Ziegenhein. He violated his oath of office in issuing that license, for it was clearly shown to him that some of the signatures had been obtained by deception. It is absurd to claim that signatures obtained in this way cannot be withdrawn from a petition. The matter will not rest here. If we can we will take it into the courts, but here comes the difficulty. Anxious as we are to keep our block free of saloons, we can lill afford to maintain an expensive warfare in the courts. Mr. Ziegenhein would call upon the City Counselor to defend him, without cost to himself, while the protesting taxpayers would have to pay their own lawyer and also pay the City Counselor's salary. Is, there any justice in this?" "We certainly have to change the saloon law," added Secretary Woods. "So as to take the power of issuing licenses out of the hands of the one man who has it now. In the meantime Mr. Ziegenhein must understand that we have by no means submitted to the presence of a saloon on our block, and we intend to get it out, one way or another, in spite of him."

[No matter written on both sides of the sheet can ppear under this head. - ED.] Justice to Dr. Dalton

To the Editor of the Post-Disputch: In a report of the inquest of James cGroarty, it is charged that he came to his death by incompetent surgery at the hands of Dr. Dalton and his assistants.

Now I want to say that I have passed through the same ordeal that James Mc-Groarty did and performed by the same Dr. Dalton. I must say that I found him the most sympathetic and attentive man I ever met. I had my limb amputated nine inches below the hip joint and I weighed 340 pounds at the time, and he had nothing but fat to contend with. For all that, he made such a perfect operation that I pulled through, thanks to his efficient skill and kind attentive care, and I now am a living evidence of his work which any one can see by calling at my place of business, 1818 North Grand avenue. I will cheerfully receive them and proudly show theerfully receive them and proudly so them one of the finest stumps on record—a Dalton did it. C. H. Sterns, 1818 North Grand avenue

A Paving Job.

To the Editor of the Post-Dispatch: The property owners on Lafayette avenue, from Jefferson to Grand, were heavily taxed last fall for the so-called reconstruction of worse, more filthy condition than ever be worse, more hithy condition than ever before. The crossings are all made lower than
the street, and the red mud is over the shoetops. It is literally piled up in the street.
Is there any redress? Can we who have not
paid co ntest that tax reasonably and justly?
It would pay your reporter to come out and
see the sight of mud, noies and hills in Lafayette avenue and write it up. RESIDENTS.

Whalebacks." The writer, "Impartial," spoke in favorable terms of the Lucas ship, but does not tell us how such a vessel can be constructed. I am a born skeptic and have been victimized more than once in my life. been victimized more than once in my life, yet I believe in progress and the ability of american genius to overcome any and all difficulties of nature. I know enough about the Mississippl River to assert that the difficulties of securing a channel of fifteen or seventeen feet between St. Louis and Calro are enormous. The great drift of sand and silt coming down the Missouri River necessarily form a deposit of heavy sand that must make bars and shoal places between St. Louis and Cairo. From Cairo to the Gulf there is no difficulty in the way of floating vessels of seven to twelve feet at all times. If the Government will so improve the channel of the river between St. Louis and Cairo so as to afford a uniform minimum depth of eight feet, and the claims of the Lucas ship can be verified, then the great problem of the present age is solved. Direct, economical and rapid transportation from our river cities of other lands is, I think, the secret of our successful rivalship with the European countries that now control this immense and valuable commerce.

Please answer through your columns the question in what way can the Lucas ships, or rather by what process or system, can they do the work, which I see is claimed for them.

HOW THE FINDING OF THE DIRECTOR WAS REACHED.

the Committee Denied by Members

secret session for the purpose of investigat-ing the connection of Prof. Isaac N. Judson of the High School with Dr. C. T. Breed subject to be handled was one of very

great gravity, as was evinced by the attend over and above the usual understanding at formation, whatever, should be given of In the first place, a part of the investigat was in a direction which would only be made far worse by publicity, and in the second place there was an understanding arrived at which would if known defeat the purpose of the resolution adopted for publication and genera i dissemination.

Prof. Judson was in charge of his classes at

the High School this morning, but the circum-stances and facts which have developed since

culiar.

Two of the Directors who were at the meeting were seen and asked a number of questions, some of which they answered and some of which they did not.

One of these two intimated that although the committee feit that it could not, in view of the evidence developed, impose so severe a penalty as dismissal on Mr. Judson, a private understanding was had that he should eventually resign his position as if of his own volition under cover of the resolution.

"The committee could not dismiss Mr. Judhe would quietly resign?"
"I don't know. If there was I don't know of it."

"What did he say?"
"What did he say?"
"Well, one thing he said was that Dr.
Breediove sometimes threw his arms around
his neck and kissed him, but that he always
discouraged these demonstrations."
"Did Dr. Ware testify?"
"Ido not know. I was not there during
the eptire meeting."
TEACHING TO-DAY.

"Can I see Mr. Judson?" was asked of Prof. Soldan.

"No. I cannot permit it. He is now in charge of his class and I would not care to have him disturbed, as it would have a very bad effect. He has had too much unpleasant publicity as it is, and as long as I am in authority here I cannot permit his being in-

"I do not think he is. He has not said so to me."
"What has he said on the subject?"
"He has said nothing."
"Do you think Mr. Judson should be left in charge of a lot of school children?"
"The committee has exonerated him in this matter. His connection in the case can not be held against him. It is true he went too far but it was his charity for the man that carried him over the danger line."
Supr. Long was questioned: "Was there an understanding in the committee that Judson should resign?"
"No, I do not think there was."
"Are you sure?"
"Yes, I am pretty certain."
"Did Dr. Ware appear before the committee?"
"Yes." "He has said nothing."

"He has said nothing."

"Oo you think Mr. Judson should be left in charge of a lot of school children?"

"The committee has exonerated him in this matter. His connection in the case can not be held against him. It is true he went too far but it was his charity for the man that carried him over the danger line."

"Yoan you tell what he said?"

"No,'

Director McEntire, who brought about the investigation and conducted most of it, was seen and asked if he would speak on the subject.

"No, I will not discuss any phase of the case."

"Was it understood that Prof. Judson was to resign?"

"I cannot say."

"I cannot say."

"He did testify to that, did he not?"

"I will not state."

"I will not say. "

"I will not sa greatly alarmed over two supposed cases of

case." Was it understood that Prof. Judson was to resign?"
"It cannot say."
"Did Dr. Ware testify that Judson knew of Breedlove's character when he brought him to his office?"
"It will not state."
"He did testify to that, did he not?"
"It will not say."
"Did not Mr. Judson say that Dr. Breedlove had thrown his arms around his neck and kissed him?"
"I will not answer that, but I would like to know where you got the information."
The same close adherence to the understanding as to secrecy was observed by all who were at the meeting, and in every instance it was insisted that Prof. Judson was not asked to resign, but as to whether he would or not was another question.

In the meeting two directors were for dismissal and only consented to vote for the resolution as it was passed when they were impressed with the full meaning of a dismissal. When they realized what an everiating disgrace it would be to dismiss Prof. Judson under the existing circumstances they decided to vote for the resolution. For a time the question of adding a clause asking Prof. Judson to resign on account of the publicity the case had been given was debated. It was decided not to do so.

Prof. Judson was kept on the stand off and on for two hours and much 'developed which may never be made public. This depends, probably, on the action of the teacher whose name is involved and on the action of the parents of children who must sit in his classes.

Mrs. Alber B. Harrison Tried to Blind Her Brother-in-Law. All of the interesting facts have not been told in the unpleasantness which brought about the street duel between Aiber B. Harrison and his brother, Wm. L. Harrison, in North St. Louis on Wednesday night, as reported in yesterday's Post-Distance exclusively. Just a week ago the wife of Aiber, who accuses William of a criminal assault on her, tried to blind him with cayenne pepper. Aiba told his wife, he says, to avenge her wrongs on William and that he would protect her. He suggested cayenne pepper as the proper thing to use on the brother. Husband and wife left their

The resolution which was agreed upon after two hours of secret session was as follows:

Another startling rumor which gained currency, but no confirmation was that Water Commissioner Holman would be let out by the new combine. The reason alleged was that Councilman James would not enter the deal if Holman were retained, this objection being based on the wishes of his constituents. The North End Improvement Association has had trouble with the Water Commissioner and fought him through their friends in the Council.

Against the rumor which is authenticated simply as a rumor by reliable persons is the express declaration of Messrs. Walbridge and Horton that the Fire Chief and Water Commissioner shall not be changed. the eptire meeting."

TEACHING TO-DAY.

A call was made at the High School to see Prof. Judson. The reporter was met by Prof. Soldan, the director of the school, and Supt. Long, who were standing in the hallway. They divined the purpose of the visit immediately and assumed a formally polite tone.

Want an Engine House.

Delegate Tom Kaye of the Twenty-seventh Ward dropped in to see Comptroller Stevenson this morning armed with a big petition from his constituents asking for the erection of a fire engine house in the vicinity of the Female Hospital. The petition is signed by the Blocker & Post Sewer Pipe Co., Christy Fire Clay Co. and other large manufacturing establishments. It is claimed that the nearest engine company can not reach their vicinity within thirty minutes, and that the city should do something to protect the large manufacturing industries, as well as their own property. Mr. Kaye used yesterday's fire at the Female Hospital as an argument, and pictured in strong language the terribie disaster that might have ensued had the fire occurred at night. Comptroller Stevenson said there was evidently a crying necessity for an engine company in the locality, but the city had no money to spare. The matter will be brought before the Municipal Assembly. The criticism of the St. Louis Militia made by Col. John B. Gandolfo concerning the absence of the national colors during the parade on Washington's birthday has given rise to no little comment in military and militia circles. The following letter was

'They won't go.' Mr. Horton corrected the announcement made in a morning paper that the new committees would be appointed to night and set to work reporting the Mayor's appointments. By the resolutions adopted the matter does not come up until next Tuesday night.

Politicians are discussing the why and wherefore and more especially the probable outcome of the Council re-organization. Comfort was known to be a candidate for the secretaryship, but he was more than the Democrats could swallow.

The true story of the reorganization would seem to prove that neither Filley nor Comfort played the important role in the premises that many are anxious to ascribe to them.

About the time the fight on Dr. Dalton and Commissioner Furlong was hottest Councilman Cuilinane made a strong effort to have his friend, Architect Reid, reported for the office of Building Commissioner. The combine was a trifle put out at Furlong, and Cuilinane would have been successful if Mr. Horton had not interfered. Mr. Cole was willing and anxious that Mr. Reid's name should have been reported and his confreres were of the opinion that it was time to set the ball rolling and run through all the Mayor's appointments with the exception of Lindsay and Holman. It is a fact that a favorable report

under a false assumption. The archbishop's favorite maxim, "Lauda post-mortem," was ever before me while preparing the work. Eyen though the book be but a brief sketch the criticism is unjust. The author is accused of hiding the many noble qualities of mind and heart of the illustrious archibishop. This is untrue. The student life of the archbishop at Maynooth is treated in full, as are his public acts in the councils of Baltimore. There is a complete analysis of his character and learning and a catalogue of his fiterary works. The critic takes us to task for not using diocesan records. It may surprise him to learn that there are no records of interest in a diocese in which only one synod and two provincial councils have been held in fifty years. To those who wonder that the life was not fuller the author would state that an extended eulogy, beatting the Archbishop's character and works, would be extramely indelicate and entirely unfitting until after his death. It was done in an indirect way by referring to the noble priests and bishops trained and consecrated by him to assist in carrying out God's work. Many historical facts and incidents, if published, would evoke discussions which would emoliter, perhaps, the Archbishop's declining years. This was foreign to our purpose, simply and modestly to set forth the Archbishop's purity, greatness and nobility of character as exemplified in his lifework was the author's task. And from many most competent judges he has received assurances that it was httingly done."

Rev. W. D. Bliss and Father Huntington Rev. W. D. Bliss and Father Huntington discussed to a large audience at Chatsworth Hail last night, on the "New Social Movement." Father Huntington, who is a well-known Episcopalian, gave a history of the Knights of Labor. He said that the labor question was the social question, the social question the political question, and the political question the religious question.

Mr. Bliss said that the new social movement was not of the past, but of the present and future. The principles of the Raights of Labor. Those principles of the Knights of Labor. Those principles were then elaborated upon at length.

America, a title which the latter now holds and the former once held. Needham lost it continue, the same as and the former once held. [Needham lost it to Ryan in their previous fight. The weiter weight class is between the light and heavy weight classes and but few me fight in it. It is probable that there are light weights who can beat either Ryan or Needham. The latter has had a great many battles and has won them all except four—two draws and two defeats. He never defeated a good man, however, and was defeated by Light-weight Billy Meyer without much effort. His other defeat was by Tommy Ryan and Patsy Kerrigan and Tommy Danforth fought him draws. Billy Mahon, the San Francisco light weight, whom he twice conquered, is the best man he ever beat. In fact the only other man downed by him who is at all well-known is Harry Gilmore, the Canadian light-weight, and Gilmore is noted only for having met scores of good men without ever defeating any of them.

out ever defeating any of them.

Tommy Ryan had no reputation except as a local fighter around Chicago until he met and defeated Needham before the Twin City Athletic Club of St. Paul. Just previous to being matched with Needham Ryan whipped Tommy White. Since his battle with Needham, he has placed two more victories to his credit, but both his opponents were men of little note. Ryan's battle with Needham lasted seventy-six rounds, but the Chicagoan was rather new to the ring, while the Minnesota man had had considerable experience. That fight gave considerable experience. That fight gave Ryan needed experience and he has un-doubtedly improved since then, while Need-ham cannot be much if any better. Ryan is the younger man, and was scarcely of age, when he met Needham before. Therefore he should have less trouble in defeating the Minnesota puglist Monday night than he did a year ago, and the battle will probably not last as long. STOP!

I want to say a few words to you about Shirts and Shirt making. There are a great many men who never have a shirt to fit or please them although they have them made to order and pay a top price. There are several reasons why they are not suited, but it may be unkind in me to give them. I will say this, however, that if you want a shirt made to your measure that will fit you, and please you, and make you comfortable, I will make it for you, provided you do not give me too many instructions as to how a shirt should be made, but give me the order to make it and you the right to reject it, provided it does not suit you. Remember I make nothing but the best and highest class shirts and you take no risk of getting shirts which do not please you as I will try them on and fit you in my store as a tailor does a coat.

Doctors disagree. They have to. There are differences of opinion among the best; there will be so long as knowledge is incomplete.

But there is one subject on which all physicians are completely in accord, and that is the value of cod-liver oil in consumption and scrofula, and many other conditions in which the loss of fat is involved. And cod-liver oil has its greatest usefulness in Scott's Emulsion.

There is an interesting book on the subject; sent free.

Lizzle and Lane Daily, girls aged 17 and 8 years respectively, fell into a cellar in the rear of Mrs. Elizabeth Rollaford's residence, 1225 North Thirteenth street, last night, and the younger of the sisters was oadly hurt, re-ceiving an ugly cut three inches long over her left eye. The wound is, however, not con-sidered dangerous. The girls had visited Mrs. Rollaford to have their hair dressed for a party, and were leaving the house at the time of the accident. The cellar door had been left open.

An Important Difference.

To make it apparent to thousands, who think themselves ill. that they are not affected with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. Man-ufactured by the California Fig Syrup Co.

A lady giving her name as Mrs. Smart, but refusing to give her address, while waiting in the ladies' waiting-room for the Iron Mountain train for Austin, Tex., at 8 o'clock last night, had her satchel, containing her pocket book and other valuables, snatched from her by a man, who was captured by Officer (Corcoran, who was standing near when the robbery occurred. Mrs. Smart, on receiving her satchel back, refused to stay in the city to prosecute.
